

Supreme Court of Julia
Official Announcement of Admonishment
July 1, 2025

The Supreme Court of Julia issues this formal statement to publicly admonish Judge ImperialAmerican for recent remarks that have caused serious concern throughout the Julian judiciary and among the Julian people.

Judge ImperialAmerican made public statements that were widely perceived as homophobic in nature. Although these comments were not made in the course of judicial proceedings, the individual who wears the robe carries the weight of public trust at all times. Remarks of this kind fall far short of the dignity and impartiality expected of any Julian judge.

A motion for disbenchment was submitted and thoroughly considered. After careful deliberation, the Court has determined that while the comments were damaging to the integrity of the judiciary, they do not—by the narrowest of margins—meet the threshold for permanent removal.

Accordingly, Judge ImperialAmerican is hereby formally and publicly admonished. This action is not taken lightly. It reflects the Court's grave disapproval of conduct that compromises the reputation and moral authority of the bench.

While ImperialAmerican has stated these things said statements do not appear to have affected his judgement in any way, but this Court warns that any undue bias is taken very seriously and has dire consequences.

Let it be clearly stated:

- * The Supreme Court of Julia condemns these remarks in the strongest possible terms.
- * This admonishment shall be entered into the judge's official disciplinary record.
- * Any future incident of similar nature will result in immediate and escalated disciplinary consequences.

The judiciary of Julia must remain a beacon of fairness, justice, and equality for all Julians. No judge is above that responsibility, and no words spoken in disregard of it will go unaddressed.
